What is the global solar glass market size? Solar Glass Market size is expected to reach nearly US\$ 146.11 Bn. by with the CAGR of 29.3% during the forecast period. Increasing demand for clean energy, due to growing awareness regarding global warming is in turn, increasing the demand for photovoltaic glass, thereby boosting growth of the market. Why is the solar PV glass market growing? Government rules that are favorable to the development of solar PV plants is one of the factors driving the growth of the solar PV glass market. Additionally, the market for solar PV glass is growing due to the surge in demand for solar systems on a residential, commercial, and utility scale. Will declining solar PV glass prices bolster global market growth? The global solar PV glass market is characterized by several key trends that are expected to play an important role in the coming years. Declining solar PV glass prices are presumed to bolster the global market growth over the forecast period. How big is the Solar Photovoltaic Glass market? Image (C) Mordor Intelligence.
